# ABOUT US

Dragon Bilingual Childcare is located in a comfortable, residential area in Bangor, ME and is a fully licensed family child care provider. Children two years and older are primary candidates for the language curriculum, but we accept children as young as six weeks old. We foster an environment for childhood learning and socialization with a focus on bilingual education in both Chinese and English languages.

Children will learn through art, music, structured and free play.

# WHY CHOOSE US?

*Bilingual and multilingual children benefit academically from knowing more than one language.*

Research shows that bilingual people have an easier time:

- understanding math concepts and solving word problems
- developing strong thinking skills
- using logic
- focusing, remembering, and making decisions

Long-term success shows that in today's global society, bilingual and biliterate adults have more job opportunities than monolingual adults.

# WORDS FROM THE FOUNDER

Children learn languages with great ease. Childhood is a perfect time to give your children every advantage in this life. Children are the future of the United States and the world. Learning languages will provide many opportunities and open many doors. Learning languages gives a better understanding of people worldwide. Now, more than ever, we need people who can communicate effectively and work harmoniously with their counterparts to build global relationships and cooperation. Learning languages helps people better understand each other worldwide. China is one of the biggest markets in the world, and learning the Chinese language and culture is essential for the next generation to engage in international business and world affairs. As a Chinese-American and a mother of two Ivy League college students, my experiences and hard work for the past 20 years have taught me that “Love is our common language” and “Chinese and Americans are good friends!” I know our new program, Dragon Bilingual Childcare will bring success for generations to come. Thank you and we look forward to working with your children.
