

Dear Parents,

As a certified Chinese teacher and the founder of the Bangor Chinese School, I have a dream of providing opportunities for children to learn how to speak more than one language because I believe children are the experts at learning languages.

Children are the future of the United States and the world, so as educators we have an obligation to prepare them to not only take on the real world but also to lead the world. This begins with opportunities, and learning languages will help open so many doors.

Learning languages will help people worldwide understand each other better. As China has one of the biggest markets in the world, learning Chinese language and culture is essential for the next generation to engage more effectively in international business and world affairs. Now more than ever, we need people who can communicate effectively and work harmoniously with their counterparts on the other side of the world to build global relationships and cooperation.

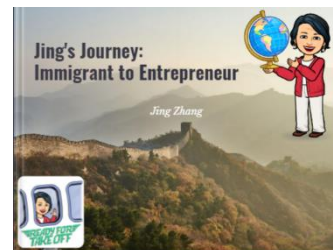

As a Chinese-American and a mom of two Ivy-League college students, my experiences and hard work throughout the past 20 years has taught me that “Love is our common language” and “Chinese and Americans are good friends!” I have a strong passion to keep the good things going for many generations to come, and with the strong support from you, the parents, it must come true for a very, very, very long time.

We have been thinking globally and acting locally since the first day BCS was founded and through more than 20 programs we have been successfully running since then. I hope this brand-new program, “The Dragon Bilingual Daycare” will be successful as well after it starts!

I would like to share my E-Book: **Jing's Journey: Immigrant to Entrepreneur/One Woman's Global Story**, here with link below:
